bcrimbh@gmail.com

Objective: A contract position to develop professionally in a virtual setting. Combines client/person centered, cognitive behavioral therapy, dialectical behavior therapy theoretical orientations in treating clients. Exhibits mindful awareness, unconditional positive regard, an empathic therapeutic relationship with the client, and collaborates in identifying what changes a client can make to minimize emotional and behavioral problems. Although my counseling interest has been primarily focused on perinatal mental health, I have equal interest in working with adults struggling with anxiety, depression, career, self-worth, relationship, and mental and emotional disorder issues. I currently hold a Licensed Professional Clinical Counselor (LPCC) license in the state of Ohio.
